- Proposed SEIS Roads
- Proposed Road Temporary Use
- VCU Boundary
- Proposed Log Transfer Facility

Map constructed by Chatham Area GIS
Contours are shown at 500-foot interval
Scale 1:75,000

NOTE: Names shown on red on this map have not been approved by the U.S. Forest Service and are intended only as an aid to orientation by the user.

Alternative F
The intent of this alternative is to focus the proposed action, as much as possible, on watersheds which have been previously disturbed. The construction system will be designed to provide a limited stream to reach the main river system. In addition, the alternative focuses the proposed action away from the primary riparian and subsistence use areas around Lake and along the river.

* RFP: "No Harvest" or other appropriate prescriptions to maintain old growth habitat conditions will apply during the construction period. The RFP will be modified after further RFP analysis and public discussion.
